To the Board of Selectmen of the Town of Southborough:

Respectfully Petition the Directors of the Boston & Worcester Street Railway Company, a street railway corporation duly established, under the laws of the Commonwealth of Massachusetts and whose tracks are located in said town of Southborough, by the President of said corporation hereunto duly authorized, for an alteration of the location of the Company's said tracks as now established in said town of Southborough and for a location for an extension of said tracks in said town of Southborough as follows:—

Said alteration of the location of the Company's tracks consists in relocating the company's present main track a short distance partly to the north and partly to the south, substantially as shown upon the plan hereinafter referred to, upon Worcester Turnpike, so-called, as now located and as it is now planned to be altered or widened. Said alterations of the location of the Company's tracks to be made from a point in said turnpike at or near the present termination of the Company's double tracks near Sudbury Reservoir, No. 5, thence easterly along the northerly side of said turnpike as now located and as it may be hereafter altered or widened to a point about 165 ft. easterly from the junction of Cherry Street with said turnpike.

Said extension of tracks of the company consist of a second main track extending from the termination of the Company's double track on said turnpike near Sudbury Reservoir, No. 5, thence easterly along the northerly side of said turnpike to a point about 165 feet easterly from the Junction of Cherry Street with said turnpike substantially parallel with and a short distance to the south of the Company's present main track as it shall be moved in alteration of its present location in accordance with the foregoing petition.

And the Directors of said Boston & Worcester Street Railway Company further petition that said Company be authorized to operate cars by electricity upon its tracks as the same shall be located after the alteration and the location for the extension above set forth, and to erect and use such poles, wires and appliances upon, over or under said Worcester turnpike as it is now located and as it may be hereafter altered and windened as may be necessary for the operation of the railway of said company over said alteration and extension of location.

The location for said alteration of location and said extension of tracks and the location of poles made necessary thereby are to be substantially as shown in red upon plan by Edwin H. Rogers, Civil Engineer, entitled "Boston & Worcester Street Railway Company, Southborough, Mass.,"—plan showing extension and alteration of tracks on Worcester turnpike between Sudbury Reservoir, No. 5, and Cherry Street," dated July 15, 1905, and filed herewith.

Dated this 26th day of July, 1905.
